

Fatima Bakran

Al Mukalla, Yemen, +967735320924, fatimabakar707@gmail.com

PROFILE

I am a web developer specializing in front-end and back-end development, as well as database management. I strive to create a unique user experience by implementing artistic touches that attract users and make the application easy to use. I am always seeking self-improvement and acquiring new knowledge and skills. My constant goal is to achieve professionalism in my work and provide innovative technological solutions.
